TITLE: MadHouse - Darts Scoring System

GENRE: Application (J2ME Mobile)

RELEASE: 1st Qtr 2007

Overview

Utilise the convenience of a mobile phone to keep score of your favourite darts games in real time.

This application provides scoreboards for a wide range of Darts variations - most of which would be difficult to play in your local games room - no chalk required!

MadHouse acts exactly like any other mobile game or application and is controlled easily via the numerical keypad.

Main Features

> Easy to use menu and control system

> Instant scoring and calculation systems on the following variations of Darts:

Original 301/501/701/901

> Up to 2 players, when in scoring range MadHouse will suggest finishing sequences.

League

> Standard x01 for 2 teams with freeze rule.

Cricket

> Up to 4 players must close numbers 15 to 20 including the bull.

Gotcha

> Up to 4 players play a 301 game but if an opponents score is matched, the score is reset.

Bermuda

> Up to 4 players throw 12 to 20 & 2 random double and trebles, score is halved if any are missed.

Fives

> Players total is divided by 5, if not divisible darts do not count. First player to 51.

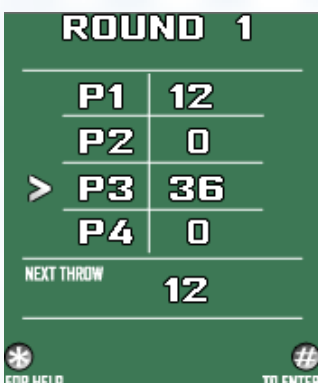

> MadHouse is compatible with most popular mobile handsets (range TBA - currently all phones with or above a 176x208 screen resolution are supported).
